

Materials and How to Choose

This course reveals the latest direct and indirect materials available to patients. The focus is now based on Biomimetic Dentistry and the use of tooth coloured direct and indirect restorations to give the best solution to restore a compromised tooth.

CPD points: 4.5 (per course)

Fee: \$395 incl GST

Date: **Auckland:**
September 11th
Precision Dental Laboratory
Lvl 1/10 Auburn St, Grafton

Start/finish time: 1:00pm – 5:30pm

Max. Attendees: 6

Course overview

Learning Objectives

Learn about the plethora of indirect materials now available from laboratories.

This discussion will help the dentist to understand how each material functions and how to prepare the tooth structure. During the discussion, bonding vs cementation and the key decisions to be made will be an important element, and we will also cover the use of gold to understand whether it is still the “gold standard” of care.

Learning Outcomes

This course will enable you to:

Make better decisions about the restorative options for your patients.

Know what preparation shape is required for the appropriate indications.

Understand the best bur choice that will enable better efficiency with your preparations.

Presenter
Dr Edmund Young
BSC BDS(Otago) FRACDS

Dr Edmund Young has been practicing in Auckland for 27 years. He is based in Meadowbank, providing General and Cosmetic Dentistry, including Digital Crowns, Implants and Orthodontics.

He graduated from the University of Otago with Bachelors in Science and Dental Surgery in 1991. He established a cosmetic and restorative dental surgery in Meadowbank in 2002.

He now focuses on Biomimetic Dentistry and its applications in modern dental care, and the use of tooth coloured restorations to provide the best available solution for restoring a compromised tooth. He is interested in imparting knowledge about dentistry to his patients on the latest direct and indirect materials available. He has also presented and trained many dentists at numerous meetings across New Zealand.
